§ 631. Declaration of policy

(a) Aid, counsel, assistance, etc., to small business concerns

The essence of the American economic system of private enterprise is free competition. Only through full and free competition can free markets, free entry into business, and opportunities for the expression and growth of personal initiative and individual judgment be assured. The preservation and expansion of such competition is basic not only to the economic well-being but to the security of this Nation. Such security and well-being cannot be realized unless the actual and potential capacity of small business is encouraged and developed. It is the declared policy of the Congress that the Government should aid, counsel, assist, and protect, insofar as is pos-

sible, the interests of small-business concerns in order to preserve free competitive enterprise, to insure that a fair proportion of the total purchases and contracts or subcontracts for property and services for the Government (including but not limited to contracts or subcontracts for maintenance, repair, and construction) be placed with small-business enterprises, to insure that a fair proportion of the total sales of Government property be made to such enterprises, and to maintain and strengthen the overall economy of the Nation.

(b) Assistance to compete in international markets

(1) It is the declared policy of the Congress that the Federal Government, through the Small Business Administration, acting in cooperation with the Department of Commerce and other relevant State and Federal agencies, should aid and assist small businesses, as defined under this chapter, to increase their ability to compete in international markets by—

- (A) enhancing their ability to export;
- (B) facilitating technology transfers;
- (C) enhancing their ability to compete effectively and efficiently against imports;

(D) increasing the access of small businesses to long-term capital for the purchase of new plant and equipment used in the production of goods and services involved in international trade;

(E) disseminating information concerning State, Federal, and private programs and initiatives to enhance the ability of small businesses to compete in international markets; and

(F) ensuring that the interests of small businesses are adequately represented in bilateral and multilateral trade negotiations.

(2) The Congress recognizes that the Department of Commerce is the principal Federal agency for trade development and export promotion and that the Department of Commerce and the Small Business Administration work together to advance joint interests. It is the purpose of this chapter to enhance, not alter, their respective roles.

(c) Aid for agriculturally related industries; financial assistance

It is the declared policy of the Congress that the Government, through the Small Business Administration, should aid and assist small business concerns which are engaged in the production of food and fiber, ranching, and raising of livestock, aquaculture, and all other farming and agricultural related industries; and the financial assistance programs authorized by this chapter are also to be used to assist such concerns.

(d) Use of assistance programs to establish, preserve, and strengthen small business concerns

(1) The assistance programs authorized by sections 636(i) and 636(j) of this title are to be utilized to assist in the establishment, preservation, and strengthening of small business concerns and improve the managerial skills employed in such enterprises, with special attention to small business concerns (1) located in
